

RESEARCH UNIVERSITY

University-wide research & innovation programs: Tech & ELSE, from low to high TRL

- Robotics (>200 researchers)
- Artificial Intelligence (>200 researchers)
- Important themes: MedTech & Personalized Health, Digital Society, Cyber-Security, Smart Industry, Resilient World, Smart Materials, Nano-Technology, Photonics

ENTERPRENEURIAL UNIVERSITY

Scientific Impact:

Times 'Higher Education-QS World University' ranks UT among top 200 universities in the world

Societal & Economic Impact

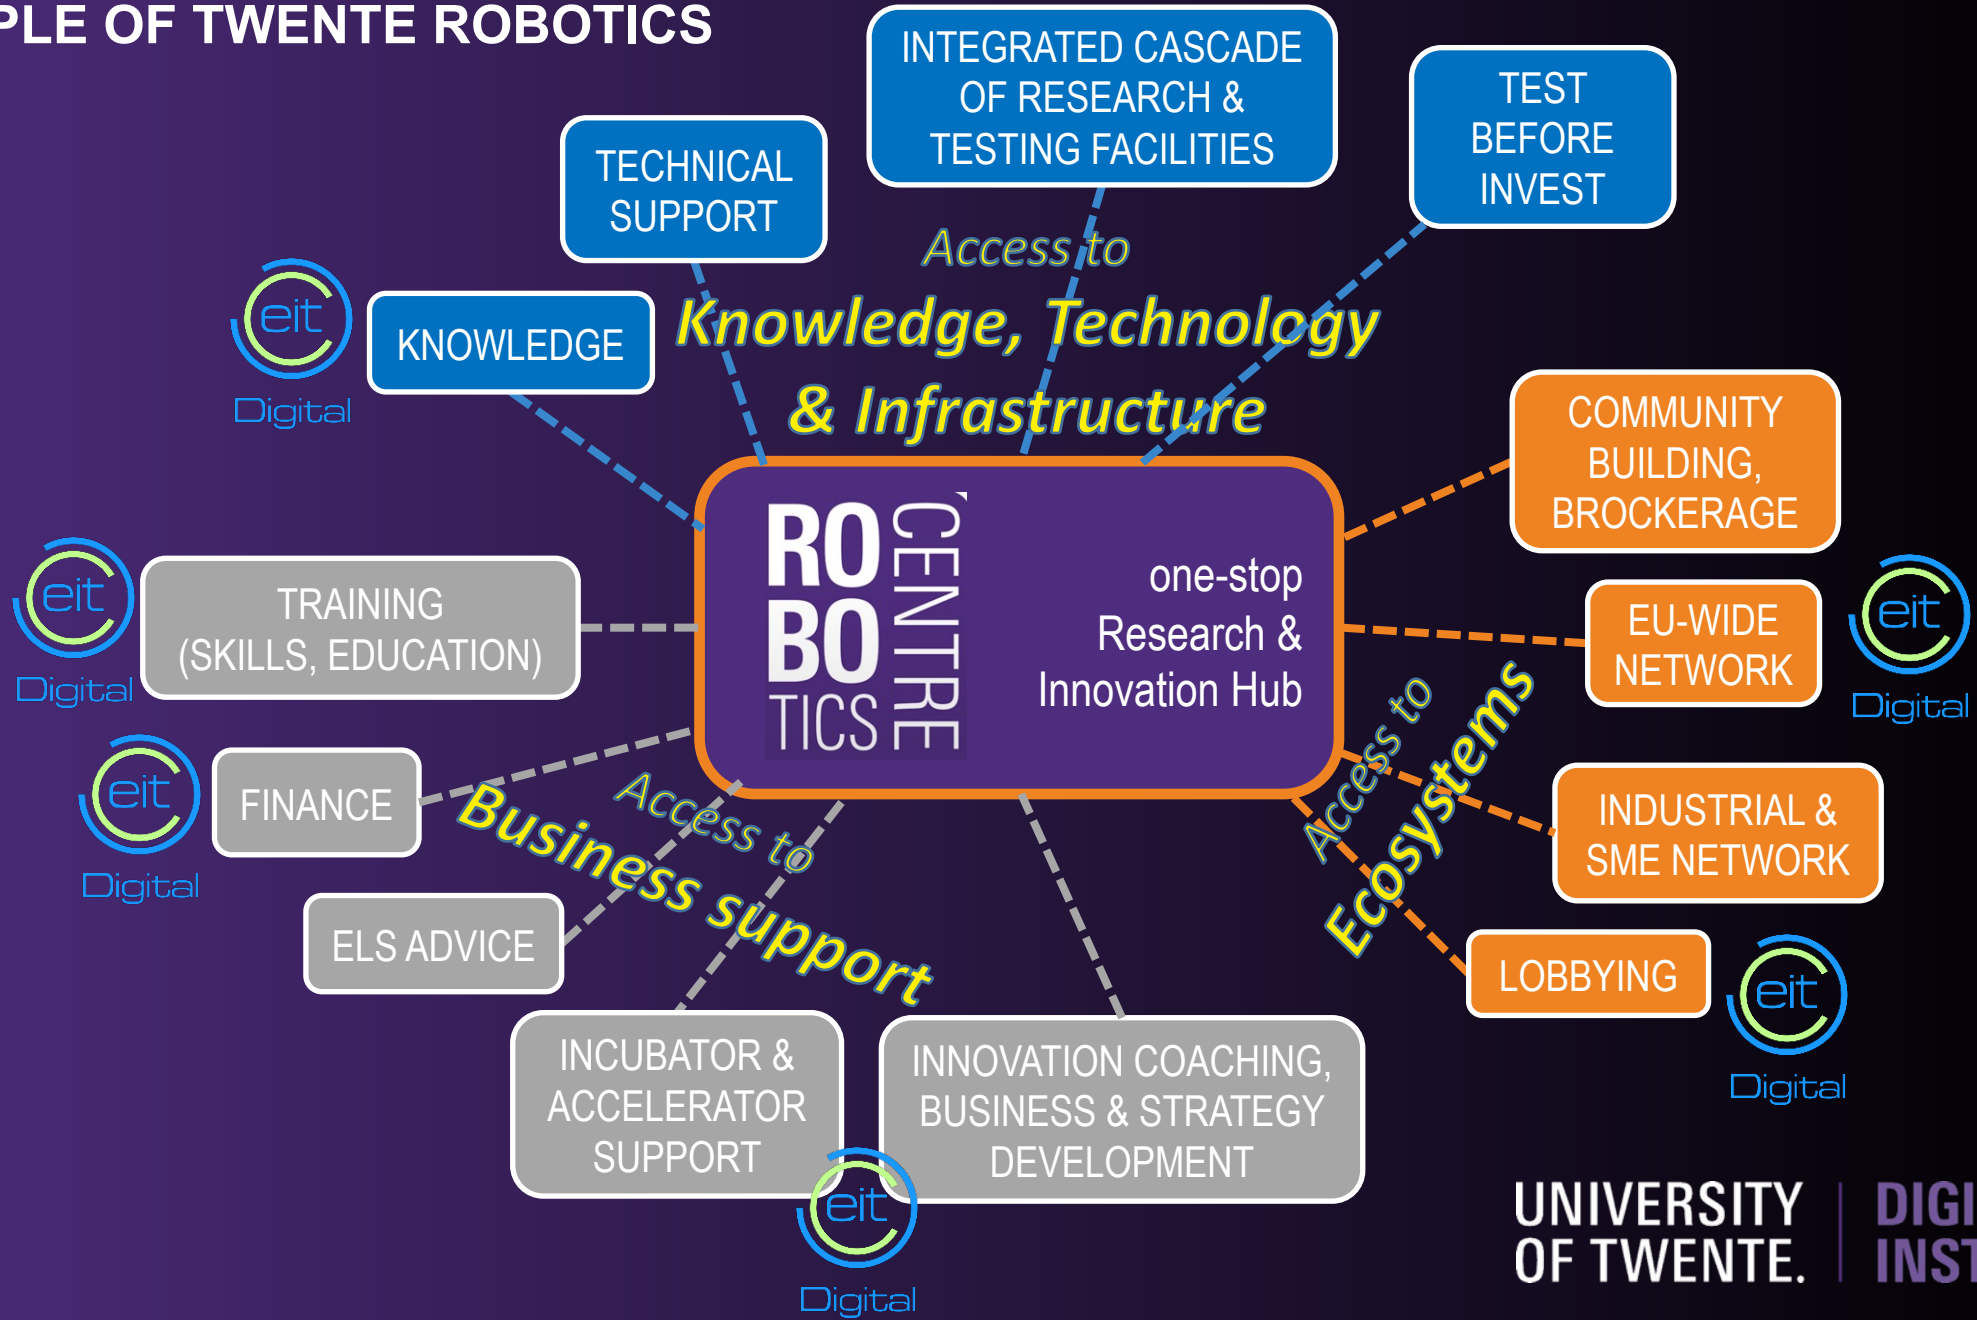

Involved in large number of PPPs.
>1,000 start-ups since 1984:
many international scale-ups, 2 Unicorns,
>14,000 direct jobs in region.

Born in
Twente

BUILDING REGIONAL ECO-SYSTEMS

EXAMPLE OF TWENTE ROBOTICS

BUILDING REGIONAL ECO-SYSTEMS

EIT DIGITAL

EIT DIGITAL - ADRA

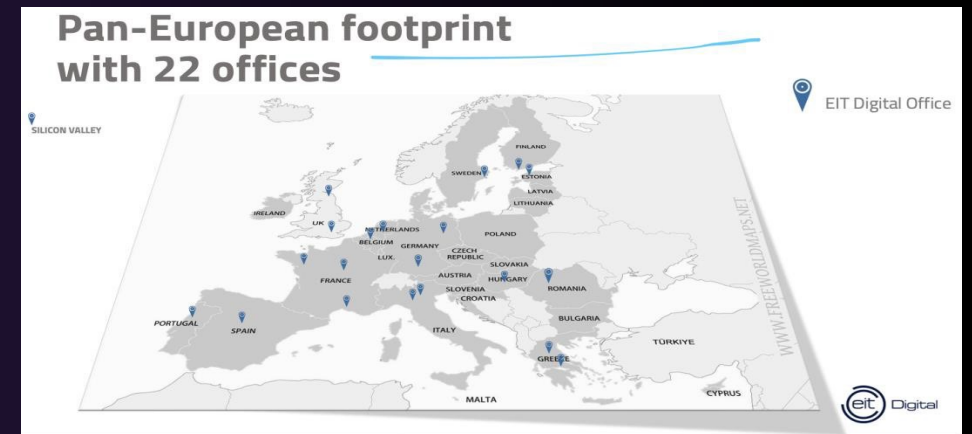

EIT Digital: Ecosystem of >350 EU corporations, SMEs, start-ups, universities, research institutes.

Over the past 13 years, EIT Digital has built an effective organization, able to deliver pan-European innovation and education activities.

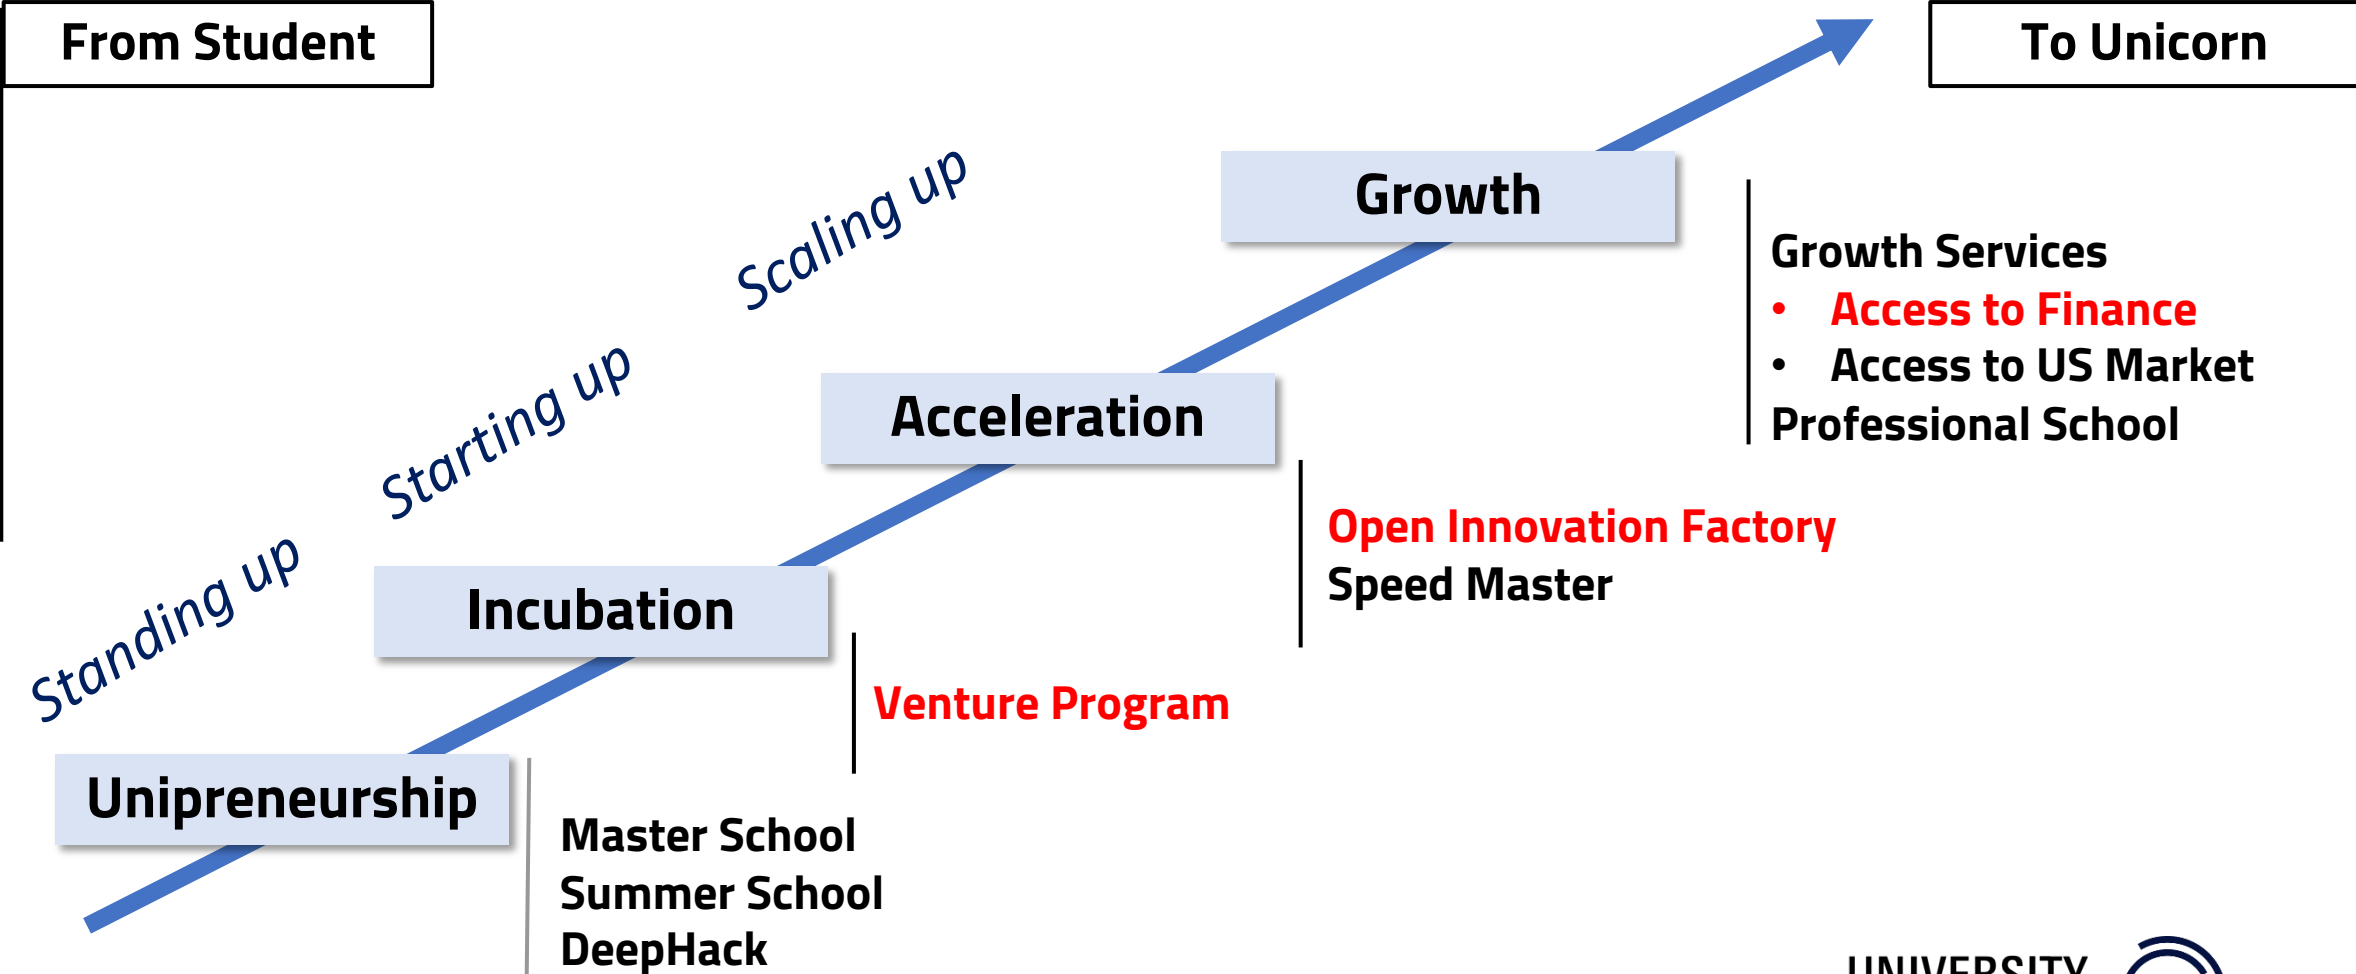

Strategic focus areas: Digital Industry, Digital Wellbeing, Digital Cities, Digital Tech, Digital Finance

Shared Goals:

- Promote EU excellence
- Develop strong innovation ecosystems across EU and beyond
- Support tech transfer, spin-offs, startups, scale-ups, SMEs
- Bringing EU values in technology
- Europe becoming a key player in ADR

ENABLEMENT PROGRAM GRAPH

UNIPRENEURSHIP

3500

EIT Digital
Master School
graduates

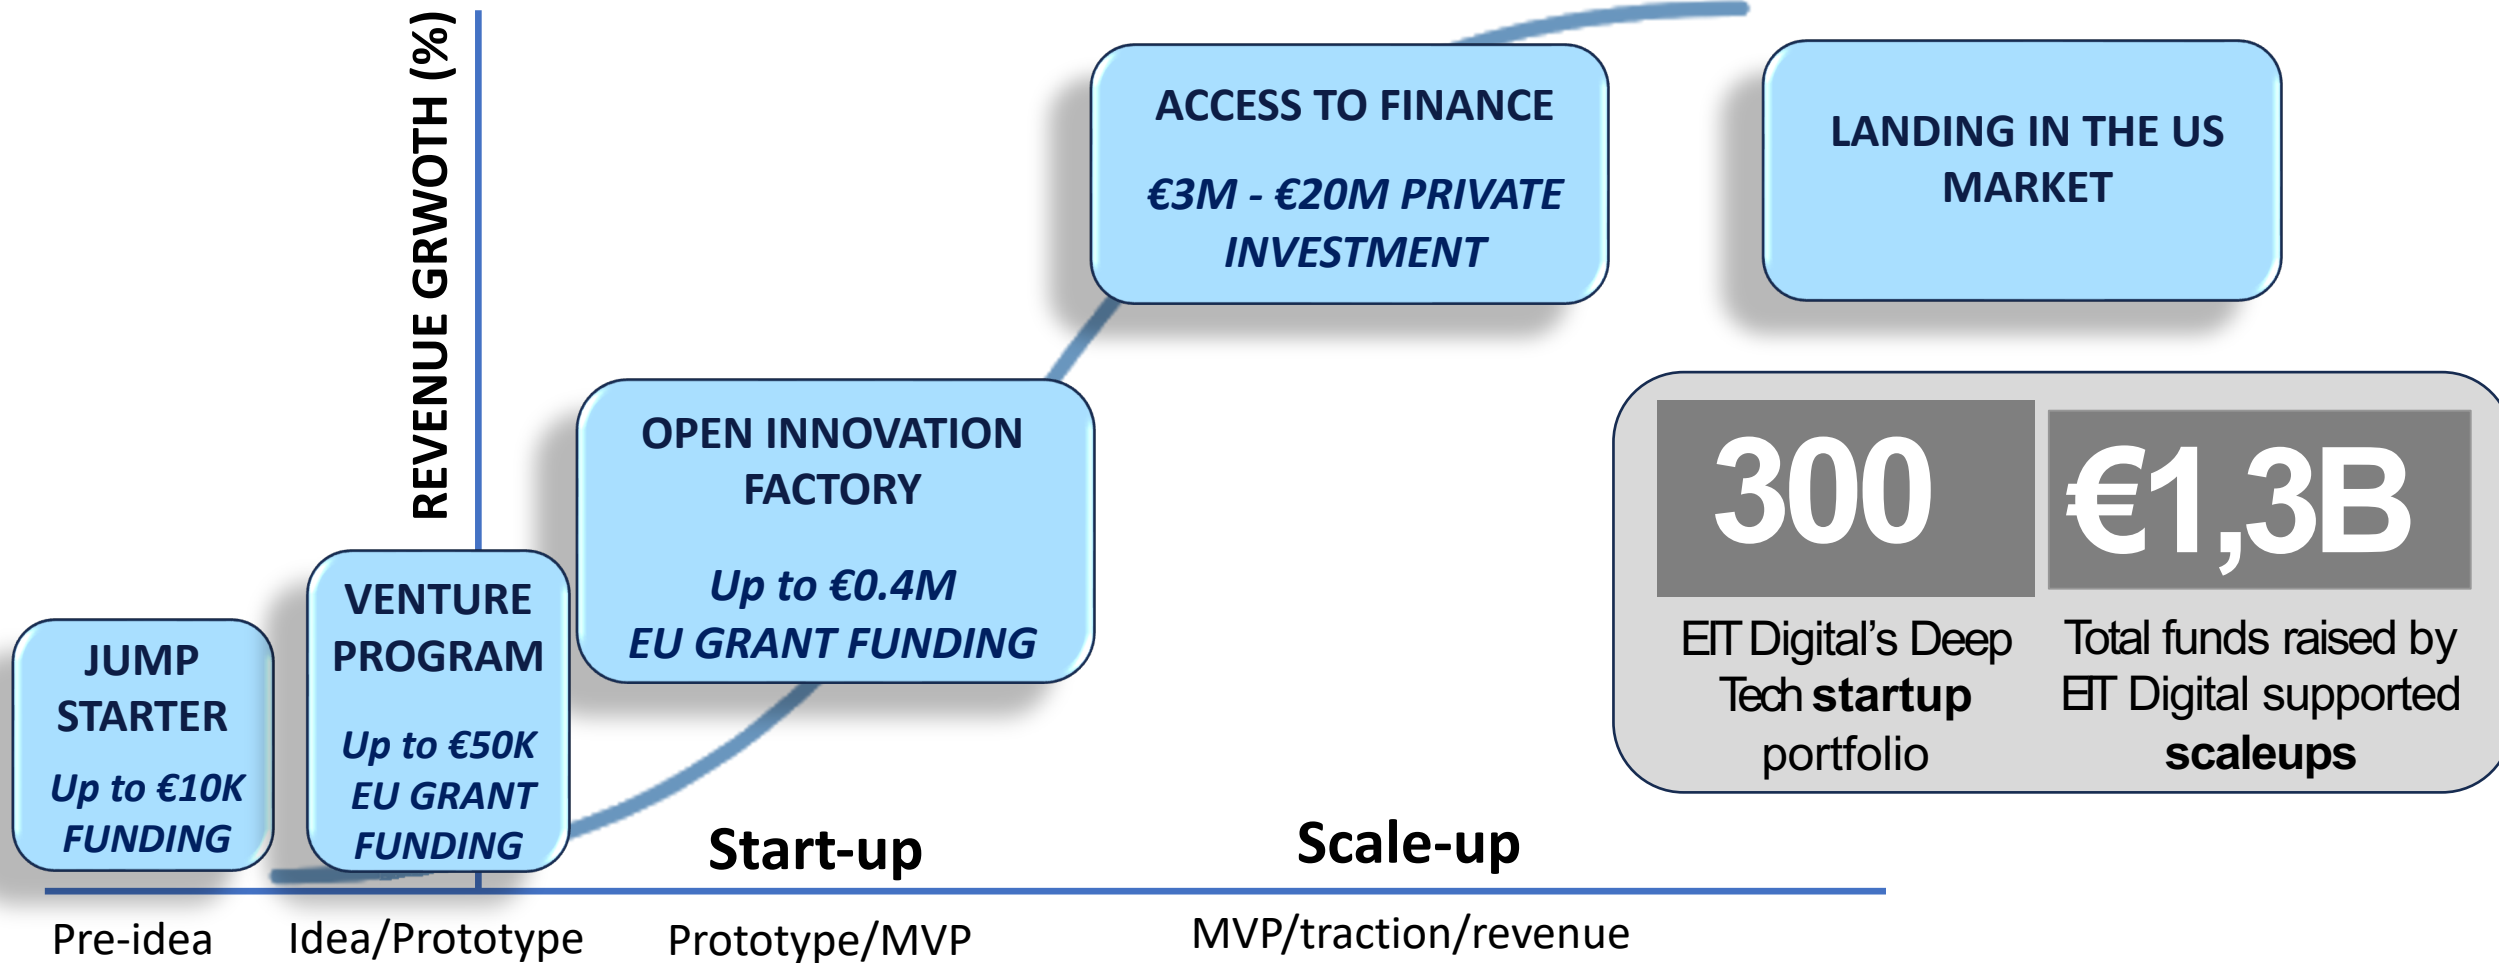

International EIT Digital Master School:

- Next generation real entrepreneurial and innovation-oriented tech students
- Makers & Shapers → Courses: 70% Tech + 30% ELSE/entrepreneurship/innovation/impact
- European entree + European exit university (dual degree)
- MSc Autonomous Systems, Data Science, Cybersecurity, Human-Machine-Interaction & Design, ...

Summer School: re-skilling, up-skilling of professionals

- Deep-dive into emerging digital technologies, learn how to turn technology into business, and eventually launch deep-tech startups
- E.g.: Boosting entrepreneurship in digital wellbeing,
Cybersecurity between tech and business,
Resilient Industrial IOT, ...

STARTUP, SCALEUP, SME SUPPORT PROGRAMS

STARTUP, SCALEUP, SME SUPPORT PROGRAMS

Research & Seed

JumpStarter Financial support up to € 10k, Idea stage incubation program, Entrepreneurship skills and prototype creation.

EIT Digital Venture Program Financial support up to € 25k, Incubation program through partners to create MVP and attract first investor, Business development help.

EIT Digital Innovation Factory

Investment between € 10k - € 400k, Mentoring & Coaching, Network of investors, corporates, partners

Seed+ & Series A/B

Scouting and acquisitions for corporates & VC and growth funds

Thematic scouting for corporates and investment funds for market research or acquisition targets. Specific mandates or as part of EIT Digital Champions.

EIT Digital Access to Finance for scaleups

Series-A, Series-B fundraising support, Extensive business development support, Warm introductions to VCs, CVCs, corporate clients

Landing in the US market

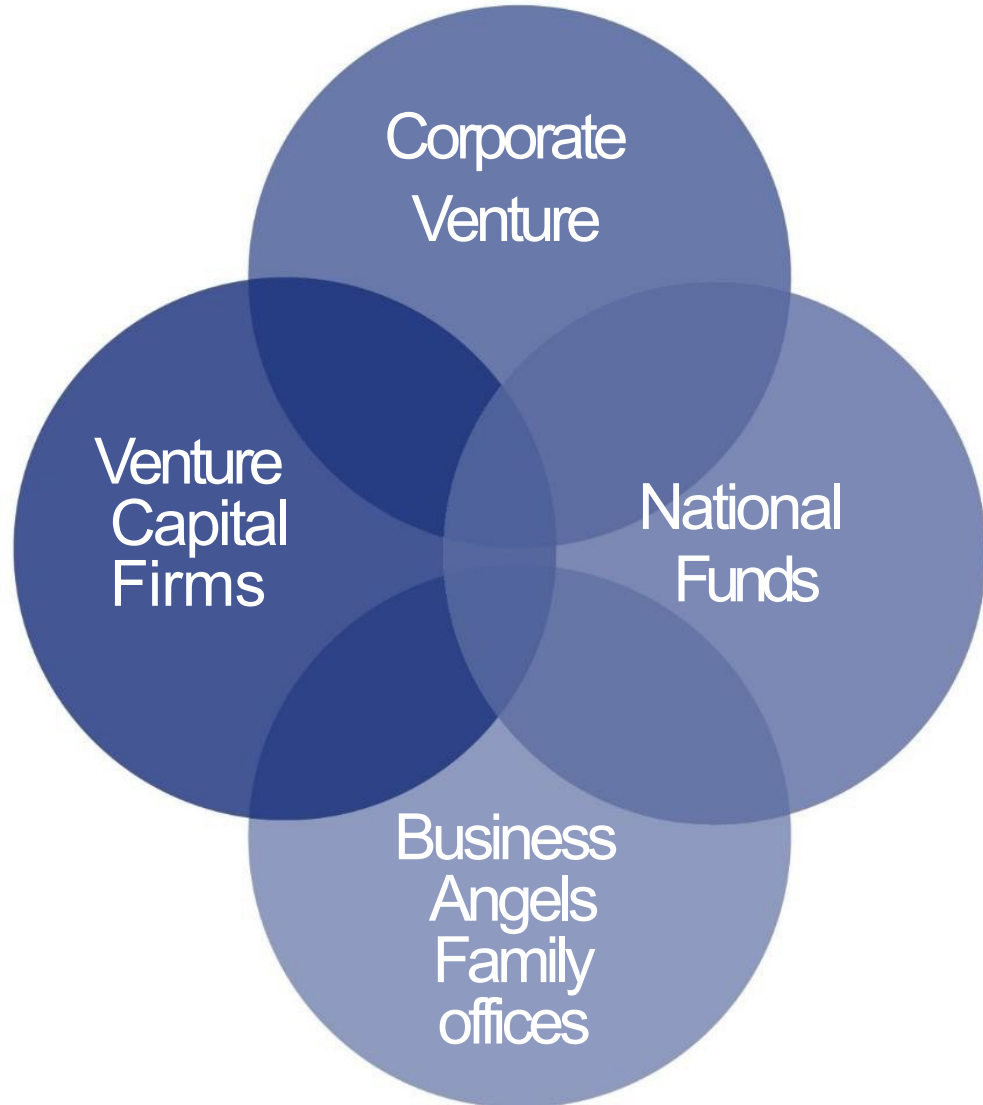

Professional preparation and coaching for US market entry, Customized program getting you ready to make your move into the US market

Currently running EU projects

€100M

Total value of currently running EU projects

EIT Digital is a portal for partners to attract EU funds via joint EU projects with **13 year experience** in securing funds and handling large grants via EU projects.

Currently, there are **20 actively running projects** worth a total value of **€ 100M**.
In the **first 10 months of 2023**, EIT Digital secured 12 EU projects together with its partners, worth of total **€ 80M**.

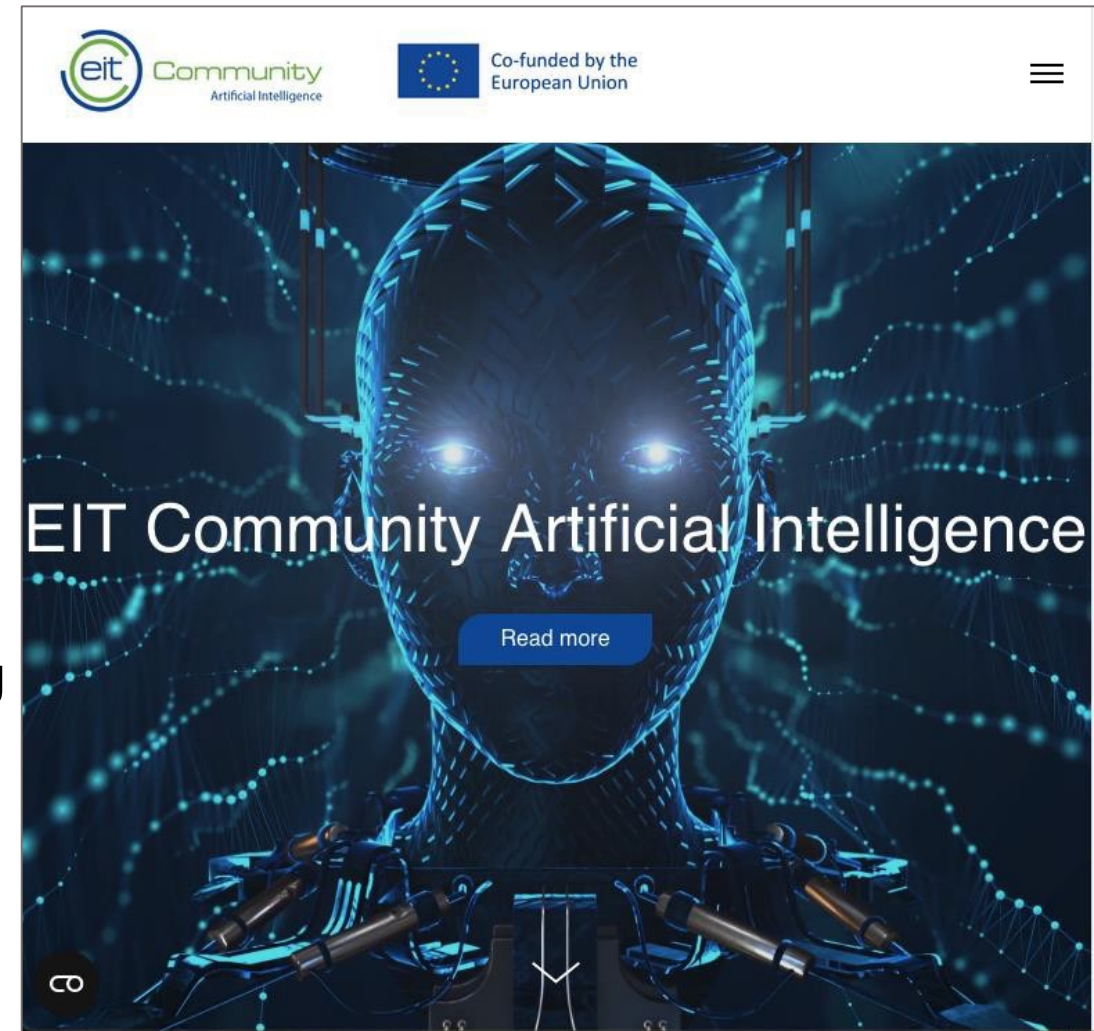

Most relevant programmes:
Horizon Europe, Digital Europe Programme, InvestEU, EIC, EIF, EIB, European Defence Fund.

EIT COMMUNITY ARTIFICIAL INTELLIGENCE

A community coordinated by EIT Digital covering:

- The entire innovation chain;
- Offering training and education programs;
- Supporting the journey from research to the market;
- Conducting innovation projects and establishing business incubators and accelerators.

CREATING IMPACT: (3) Education

International EIT Digital MSc:

- * Creating next generation real entrepreneurial and innovation-oriented tech students
- * Makers & Shapers approach → Courses: 70% Tech + 30% ELSE/entrepreneurship/innovation/impact
- * E.g. MSc Autonomous Systems, Data Science, Cybersecurity, Human-Machine-Interaction & Design, ...

European ECIU University (MSc, LLL):

- * From academic diploma to micro-credentials / micro-modules
- * Challenge-based learning
- * EU-funded initiative of the alliance of 13 ECIU universities to create a ground-breaking and innovative educational model on a European scale

MSc Robotics:

- * Integration of Robotics & AI
- * Entrepreneurship & innovation track
- * Challenge-based education (close cooperation with industry)

EngDoc (PD Eng):

- * 2 Years Engineering Doctorate degree
- * In very close cooperation with industry

CREATING IMPACT: (4) Joint labs, testing and experimentation facilities
